About Hope Air Day

On Hope Air Day we all come together to raise our voice around the issue of equitable access to healthcare

Hope Air Day unites Canadians and its elected officials, corporations and key stakeholders, and affirms our commitment to equitable access to health care for all people.

Communities across Canada can help to amplify our message to raise awareness of equitable access to healthcare for all Canadians through their local community events and social media.

A Hope Air Day celebration event will be taking place in Sault Ste. Marie bringing together pilots, patients and community stakeholders together to raise awareness of the important issue of equitable access to healthcare.

How you can support Hope Air Day:

- Share the poster in your community and network
- Share more about Hope Air on your social media, here is a link to the resource hub: hopeair.ca/hadresources
- Contact your local media and share the Hope Air Day press release
- Start your own Hope Air fundraiser
- Host your own Hope Air Day celebration in your community
