

About Hope Air

For individuals living in rural, remote, and underserved communities, unique barriers to health care access exist. Through Hope Air, patients in financial need receive free flights, accommodations, meals, and airport ground transportation when travelling far from home for care.

This year is a special year for Hope Air. Founded in 1986 Hope Air is proud to celebrate 40 years. Over the past four decades, the organization has provided more than 277,000 travel arrangements for over 106,000 patients and their escorts living in more than 700 communities across Canada—ensuring that distance and cost are never the reason someone misses critical medical treatment. Hope Air's 2025 National patient survey found with the support of Hope Air:

- Patients save over \$2,600 in medical travel costs
- 1 in 3 patients skip or postpone care due to travel costs
- 50% of patients can't afford the trip to medical care
- Patient ER visits drop 27%
- Hospital admissions decrease by 36%
- 48% of patient remain in their province with Hope Air's help
- Over 50% of Hope Air patients require an escort to travel

Impact in British Columbia in 2025

- 5,623 patient and escort trips for B.C. residents in 2025
- 21,913 medical travel arrangements
- 9,300 airline flights
- 5,000 nights of accommodation
- 3,500 meals
- 4,000 airport ground transportation trips
- 230 communities served across the province

"My husband would literally not have survived if it were not for Hope Air. We are forever grateful that this is something that was available to us. We both get extremely emotional when we think about the fact that he would not be here today if it were not for Hope Air." ~ Carolyn, wife to Hope Air Patient, Don
